## DISCUSSION OF RESULTS - 1Q21 vs. 1Q20

- Core Earnings were $\$ 112$ million compared to $\$ 119$ million.
- $\quad$ Net interest income increased $\$ 12$ million (9\%) primarily due to a favorable interest rate environment as a result of the decrease in interest rates even as the average loan balance declined 9\%.
- Provision for loan losses decreased $\$ 6$ million.
- Charge-offs were $\$ 6$ million compared with $\$ 19$ million.
- Delinquencies greater than 30 days were $\$ 3.8$ billion compared with $\$ 5.3$ billion.
- Forbearances were $\$ 8.5$ billion, down $\$ 546$ million from $\$ 9.0$ billion. Forbearances have declined by approximately $\$ 8.7$ billion from the COVID-19 peak in second-quarter 2020.
- Other revenue decreased $\$ 47$ million primarily due to a $\$ 39$ million decrease in asset recovery revenue, which was primarily a result of the wind-down of the ED asset recovery contract as well as the impact of COVID-19 on certain collection activities.
- Expenses were $\$ 20$ million lower primarily as a result of the decrease in asset recovery revenue discussed above as well as improvements in operating efficiencies.

## CONSUMER LENDING

In this segment, Navient owns, originates, acquires and services consumer loans.

| Private Education Refinance Loan originations | \$ | 1,671 | \$ | 1,148 | \$ | 1,890 |

## DISCUSSION OF RESULTS - 1Q21 vs. 1Q20

- Originated $\$ 1.7$ billion of Private Education Refinance Loans compared to $\$ 1.9$ billion.
- Core Earnings were $\$ 234$ million compared to $\$ 54$ million.
- Net interest income decreased $\$ 27$ million primarily due to the natural paydown of the non-refinance loan portfolio.
- Provision for loan losses decreased $\$ 176$ million. There was not a significant change in the credit quality of the education loan portfolio or in the current and forecasted economic conditions since December 31, 2020. The negative provision of $\$(87)$ million in the first quarter of 2021 was primarily related to the reversal of $\$ 102$ million of allowance for loan losses in connection with the sale of approximately $\$ 1.6$ billion of Private Education Loans discussed below. This was partially offset by provision related to loan originations. The provision in the year-ago quarter primarily related to an increase in expected losses due to COVID-19's negative impact on the current and forecasted economic conditions that occurred subsequent to the adoption of CECL on January 1, 2020.
- Charge-offs were $\$ 35$ million compared with $\$ 68$ million.
- Private Education Loan delinquencies greater than 90 days: $\$ 181$ million, down $\$ 166$ million from $\$ 347$ million.
- Private Education Loan delinquencies greater than 30 days: $\$ 460$ million, down $\$ 309$ million from $\$ 769$ million.
- Private Education Loan forbearances: \$797 million, down \$786 million from \$1.6 billion. Forbearances have declined by approximately $\$ 2.6$ billion from the COVID-19 peak in second-quarter 2020.
- Gains on sales of education loans (included in "Other revenue") were $\$ 89$ million in connection with the sale of approximately $\$ 1.6$ billion of Private Education Loans in first-quarter 2021. There were no such sales in the year-ago quarter. The sales of Private Education Loans were comprised of two separate transactions:
- Approximately $\$ 560$ million of non-Refinance Loans, resulting in a $\$ 46$ million gain on sale; and
- Approximately $\$ 1.03$ billion of Refinance Loans, resulting in a $\$ 43$ million gain on sale.
- Expenses were $\$ 2$ million higher.

## BUSINESS PROCESSING

In this segment, Navient performs business processing services for non-education related government and healthcare clients.

(1) Item is a non-GAAP financial measure. For an explanation and reconciliation of our non-GAAP financial measures, see pages 15 - 23.

## DISCUSSION OF RESULTS - 1Q21 vs. 1Q20

- Core Earnings were $\$ 26$ million compared to $\$ 2$ million.
- Revenue increased $\$ 68$ million, or $119 \%$, primarily as a result of revenue earned from contracts to support states in providing unemployment benefits, contact tracing and vaccine administration services. These increases were partially offset by the impact of COVID-19 on certain collection and processing activities.
- EBITDA was $\$ 36$ million, up $\$ 32$ million, or $800 \%$. The increase in EBITDA is primarily the result of the revenue increase discussed above. The EBITDA margin increased to $29 \%$ from $7 \%$.

This news release contains "forward-looking statements," within the meaning of the federal securities law, about our business and prospects and other information that is based on management's current expectations as of the date of this release. Statements that are not historical facts, including statements about the company's beliefs, opinions or expectations and statements that assume or are dependent upon future events, are forward-looking statements and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," "will," "would," "may," "could," "should," "goal," or "target." Forward-looking statements are subject to risks, uncertainties, assumptions and other factors that may cause actual results to be materially different from those reflected in such forward-looking statements. For Navient, these factors include, among others, the severity, magnitude and duration of the COVID-19 pandemic, including changes in the macroeconomic environment, restrictions on business, individual or travel activities intended to slow the spread of the pandemic and volatility in market conditions resulting from the pandemic including interest rates, the value of equities and other financial assets; the risks and uncertainties associated with increases in financing costs; the
availability of financing or limits on our liquidity resulting from disruptions in the capital markets or other factors; unanticipated increases in costs associated with compliance with federal, state or local laws and regulations; changes in the demand for asset management and business processing solutions or other changes in marketplaces in which we compete (including increased competition); changes in accounting standards including but not limited to changes pertaining to loan loss reserves and estimates or other accounting standards that may impact our operations; adverse outcomes in any significant litigation to which the company is a party; credit risk associated with the company's underwriting standards or exposure to third parties, including counterparties to hedging transactions; and changes in the terms of education loans and the educational credit marketplace (including changes resulting from the CARES Act or other new laws and the implementation of existing laws). The company could also be affected by, among other things: unanticipated repayment trends on loans including prepayments or deferrals in our securitization trusts that could accelerate or delay repayment of the bonds; reductions to our credit ratings, the credit ratings of asset-backed securitizations we sponsor or the credit ratings of the United States of America; failures of our operating systems or infrastructure or those of third-party vendors; risks related to cybersecurity including the potential disruption of our systems or those of our third-party vendors or customers, or potential disclosure of confidential customer information; damage to our reputation resulting from cyber-breaches, litigation, the politicization of student loan servicing or other actions or factors; failure to successfully implement cost-cutting initiatives and adverse effects of such initiatives on our business; failure to adequately integrate acquisitions or realize anticipated benefits from acquisitions including delays or errors in converting portfolio acquisitions to our servicing platform; changes in law and regulations whether new laws or regulations, or new interpretations of existing laws and regulations applicable to any of our businesses or activities or those of our vendors, suppliers or customers; changes in the general interest rate environment, including the availability of any relevant money-market index rate, including LIBOR, or the relationship between the relevant money-market index rate and the rate at which our assets are priced; our ability to successfully effectuate any acquisitions and other strategic initiatives; activities by shareholder activists, including a proxy contest or any unsolicited takeover proposal; changes in general economic conditions; and the other factors that are described in the "Risk Factors" section of Navient's Annual Report on Form 10-K for the year ended December 31, 2020, and in our other reports filed with the Securities and Exchange Commission. The preparation of the company's consolidated financial statements also requires management to make certain estimates and assumptions including estimates and assumptions about future events. These estimates or assumptions may prove to be incorrect and actual results could differ materially. All forward-looking statements contained in this release are qualified by these cautionary statements and are made only as of the date of this release. The company does not undertake any obligation to update or revise these forward-looking statements except as required by law.

## COMPARISON OF 2021 RESULTS WITH 2020

Three Months Ended March 31, 2021 Compared with Three Months Ended March 31, 2020
For the three months ended March 31, 2020, net income was $\$ 370$ million, or $\$ 2.00$ diluted earnings per common share, compared with a net loss of $\$ 106$ million, or $\$ 0.53$ diluted loss per common share, for the year-ago period.

The primary contributors to the change in net income are as follows:

- Net interest income increased by $\$ 90$ million, primarily as a result of a $\$ 54$ million increase in mark-to-market gains on fair value hedges recorded in interest expense. Also contributing to the increase is a favorable interest rate environment with lower interest rates and the growth in the Private Education Refinance Loan portfolio. Partially offsetting this increase is the continued natural paydown of the FFELP and non-refinance Private Education Loan portfolios.
- Provisions for loan losses decreased $\$ 182$ million from $\$ 95$ million to $\$(87)$ million:
- The provision for FFELP loan losses decreased $\$ 6$ million to $\$ 0$.
- The provision for Private Education Loan losses decreased $\$ 176$ million from $\$ 89$ million to $\$(87)$ million.

There was not a significant change in the credit quality of the loan portfolio or in the current and forecasted economic conditions since December 31, 2020. The negative provision of $\$(87)$ million in the first quarter of 2021 was primarily related to the reversal of $\$ 102$ million of allowance for loan losses in connection with the sale of approximately $\$ 1.6$ billion of Private Education Loans discussed below. This was partially offset by provision related to loan originations. The provision in the year-ago quarter primarily related to an increase in expected losses due to COVID-19's negative impact on the current and forecasted economic conditions that occurred subsequent to the adoption of CECL on January 1, 2020

- Asset recovery and business processing revenue increased $\$ 29$ million primarily as a result of $\$ 68$ million of revenue earned in our Business Processing segment from contracts to support states in providing unemployment benefits, contact tracing and vaccine administration services in connection with COVID-19. This was partially offset by the wind-down of the ED asset recovery contract in the Federal Education Loan segment and the impact of COVID-19 (temporary stoppage or other restrictions on certain collection and processing activities, and lower volume in the transportation business).
- Gains of sales of loans increased $\$ 76$ million in connection with the sale of approximately $\$ 1.6$ billion of Private Education Loans in first-quarter 2021. There were no such sales in the year-ago quarter. The sale of Private Education Loans was comprised of two separate transactions:
- Approximately $\$ 560$ million of non-Refinance Loans, resulting in a $\$ 46$ million gain on sale; and
- Approximately $\$ 1.03$ billion of Refinance Loans, resulting in a $\$ 30$ million gain on sale. In addition, there was a $\$ 13$ million gain related to derivatives that were used to hedge this transaction that did not qualify for hedge accounting. As a result, this gain related to the derivatives was included as a part of "gains (losses) on derivative and hedging activities, net" on the income statement.
- Net gains on derivative and hedging activities increased $\$ 259$ million. The primary factors affecting the change were interest rate and foreign currency fluctuations, which impact the valuations of derivative instruments including Floor Income Contracts, basis swaps and foreign currency hedges during each period. Valuations of derivative instruments fluctuate based upon many factors including changes in interest rates, credit risk, foreign currency fluctuations and other market factors. As a result, net gains and losses on derivative and hedging activities may vary significantly in future periods.
- Excluding net regulatory-related expenses of $\$ 8$ million and $\$ 7$ million in the first quarters of 2021 and 2020, respectively, operating expenses were $\$ 251$ million and $\$ 244$ million in the first quarters of 2021 and 2020 , respectively. This $\$ 7$ million increase was a result of a $\$ 37$ million increase in expenses in the Business Processing segment in connection with the $\$ 68$ million increase in segment revenue, with an offsetting $\$ 30$ million decrease in expenses primarily in the Federal Education Loans and Other segments as a result of the decrease of Federal Education Loan asset recovery revenue discussed above as well as improvements in operating efficiencies.
- During the three months ended March 31, 2021 and 2020, respectively, the Company incurred $\$ 6$ million and $\$ 5$ million, respectively of restructuring/other reorganization expenses in connection with an effort to reduce costs and improve operating efficiency. These charges were primarily due to facility lease terminations and severance-related costs.

We repurchased 8.2 million and 23.0 million shares of our common stock during the first quarters of 2021 and 2020, respectively. As a result of repurchases, our average outstanding diluted shares decreased by 15 million common shares (or 8\%) from the year-ago period.

(1) In connection with the sale of approximately $\$ 1.6$ billion of Private Education Loans.
(2) Charge-offs are reported net of expected recoveries. For Private Education Loans, at the time of charge-off, the expected recovery amount is transferred from the education loan balance to the allowance for loan loss and is referred to as the "expected future recoveries on charged-off loans." For FFELP Loans, the recovery is received at the time of charge-off.
(3) At the end of each month, for loans that are 212 or more days past due, we charge off the estimated loss of a defaulted loan balance. Actual recoveries are applied against the remaining loan balance that was not charged off. We refer to this as the expected future recoveries on charged-off loans. If actual periodic recoveries are less than expected, the difference is immediately charged off through the allowance for Private Education Loan losses with an offsetting reduction in the expected future recoveries on charged-off loans. If actual periodic recoveries are greater than expected, they will be reflected as a recovery through the allowance for Private Education Loan losses once the cumulative recovery amount exceeds the cumulative amount originally expected to be recovered. The following table summarizes the activity in the expected future recoveries on charged-off loans:

## LIQUIDITY AND CAPITAL RESOURCES

We expect to fund our ongoing liquidity needs, including the repayment of $\$ 1.4$ billion of senior unsecured notes that mature in the short term (i.e., over the next 12 months, of which $\$ 627$ million was retired in April 2021) and the remaining $\$ 7.4$ billion of senior unsecured notes that mature in the long term (from 2022 to 2043 with $85 \%$ maturing by 2029), primarily through our current cash, investments and unencumbered FFELP Loan and Private Education Refinance Loan portfolios (see "Sources of Liquidity" below), the predictable operating cash flows provided by operating activities, the repayment of principal on unencumbered education loan assets, and the distribution of overcollateralization from our securitization trusts. We may also, depending on market conditions and availability, draw down on our secured FFELP Loan and Private Education Loan facilities, issue term ABS, enter into additional Private Education Loan ABS repurchase facilities, or issue additional unsecured debt.

We originate Private Education Loans. We also have purchased and may purchase, in future periods, Private Education Loan and FFELP Loan portfolios from third parties. Those originations and purchases are part of our ongoing liquidity needs. We purchased 8.2 million shares of common stock for $\$ 100$ million in the first quarter of 2021 . We had $\$ 500$ million of remaining share repurchase authority as of March 31, 2021.

## Sources of Additional Liquidity

Liquidity may also be available under our secured credit facilities. Maximum borrowing capacity under the FFELP Loan and Private Education Loan asset-backed commercial paper (ABCP) facilities will vary and be subject to each agreement's borrowing conditions, including, among others, facility size, current usage and availability of qualifying collateral from unencumbered loans. The following tables detail the additional borrowing capacity of these facilities with maturity dates ranging from June 2021 to April 2023.

At March 31, 2021, we had a total of $\$ 6.1$ billion of unencumbered tangible assets inclusive of those listed in the table above as sources of primary liquidity. Total unencumbered education loans comprised $\$ 3.0$ billion of our unencumbered tangible assets of which $\$ 2.8$ billion and $\$ 0.3$ billion related to Private Education Loans and FFELP Loans, respectively. In addition, as of March 31, 2021, we had $\$ 5.8$ billion of encumbered net assets (i.e., overcollateralization) in our various financing facilities (consolidated variable interest entities). Since the fourth quarter of 2015, we have closed on $\$ 4.3$ billion of Private Education Loan ABS Repurchase Facilities, with $\$ 0.8$ billion outstanding as of March 31, 2021. These repurchase facilities are collateralized by Residual Interests in previously issued Private Education Loan ABS trusts. These are examples of how we can effectively finance previously encumbered assets to generate additional liquidity in addition to the unencumbered assets we traditionally have encumbered in the past. Additionally, these repurchase facilities had a cost of funds lower than that of a new unsecured debt issuance.

The following table reconciles encumbered and unencumbered assets and their net impact on total Tangible Equity.

[^3]In addition to financial results reported on a GAAP basis, Navient also provides certain performance measures which are non-GAAP financial measures. We present the following non-GAAP financial measures: (1) Core Earnings, (2) Adjusted Tangible Equity Ratio and (3) EBITDA for the Business Processing segment.

## 1. Core Earnings

We prepare financial statements and present financial results in accordance with GAAP. However, we also evaluate our business segments and present financial results on a basis that differs from GAAP. We refer to this different basis of presentation as Core Earnings. We provide this Core Earnings basis of presentation on a consolidated basis and for each business segment because this is what we review internally when making management decisions regarding our performance and how we allocate resources. We also refer to this information in our presentations with credit rating agencies, lenders and investors. Because our Core Earnings basis of presentation corresponds to our segment financial presentations, we are required by GAAP to provide certain Core Earnings disclosures in the notes to our consolidated financial statements for our business segments.

Core Earnings are not a substitute for reported results under GAAP. We use Core Earnings to manage our business segments because Core Earnings reflect adjustments to GAAP financial results for two items, discussed below, that can create significant volatility mostly due to timing factors generally beyond the control of management. Accordingly, we believe that Core Earnings provide management with a useful basis from which to better evaluate results from ongoing operations against the business plan or against results from prior periods. Consequently, we disclose this information because we believe it provides investors with additional information regarding the operational and performance indicators that are most closely assessed by management. When compared to GAAP results, the two items we remove to result in our Core Earnings presentations are:
(1) Mark-to-market gains/losses resulting from our use of derivative instruments to hedge our economic risks that do not qualify for hedge accounting treatment or do qualify for hedge accounting treatment but result in ineffectiveness; and
(2) The accounting for goodwill and acquired intangible assets.

While GAAP provides a uniform, comprehensive basis of accounting, for the reasons described above, our Core Earnings basis of presentation does not. Core Earnings are subject to certain general and specific limitations that investors should carefully consider. For example, there is no comprehensive, authoritative guidance for management reporting. Our Core Earnings are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies. Accordingly, our Core Earnings presentation does not represent a comprehensive basis of accounting. Investors, therefore, may not be able to compare our performance with that of other financial services companies based upon Core Earnings. Core Earnings results are only meant to supplement GAAP results by providing additional information regarding the operational and performance indicators that are most closely used by management, our board of directors, credit rating agencies, lenders and investors to assess performance.

The following tables show Core Earnings for each reportable segment and our business as a whole along with the adjustments made to the income/expense items to reconcile the amounts to our reported GAAP results as required by GAAP.

(1) Derivative Accounting: Core Earnings exclude periodic gains and losses that are caused by the mark-to-market valuations on derivatives that do not qualify for hedge accounting treatment under GAAP, as well as the periodic mark-to-market gains and losses that are a result of ineffectiveness recognized related to effective hedges under GAAP. These gains and losses occur in our Federal Education Loans, Consumer Lending and Other reportable segments. Under GAAP, for our derivatives that are held to maturity, the mark-to-market gain or loss over the life of the contract will equal $\$ 0$ except for Floor Income Contracts, where the mark-to-market gain will equal the amount for which we sold the contract. In our Core Earnings presentation, we recognize the economic effect of these hedges, which generally results in any net settlement cash paid or received being recognized ratably as an interest expense or revenue over the hedged item's life.

The table below quantifies the adjustments for derivative accounting between GAAP and Core Earnings net income.

(1) Derivative accounting requires net settlement income/expense on derivatives that do not qualify as hedges to be recorded in a separate income statement line item below net interest income. Under our Core Earnings presentation, these settlements are reclassified to the income statement line item of the economically hedged item. For our Core Earnings net interest income, this would primarily include: (a) reclassifying the net settlement amounts related to our Floor Income Contracts to education loan interest income; and (b) reclassifying the net settlement amounts related to certain of our interest rate swaps to debt interest expense. The table below summarizes these net settlements on derivative and hedging activities and the associated reclassification on a Core Earnings basis.

| Total mark-to-market gains (losses) on derivative and hedging activities, net | \$ | 92 | \$ | 32 | \$ | (236) |

(3) Other derivative accounting adjustments consist of adjustments related to: (1) foreign currency denominated debt that is adjusted to spot foreign exchange rates for GAAP where such adjustments are reversed for Core Earnings and (2) certain terminated derivatives that did not receive hedge accounting treatment under GAAP but were economic hedges under Core Earnings and, as a result, such gains or losses are amortized into Core Earnings over the life of the hedged item.

Cumulative Impact of Derivative Accounting under GAAP compared to Core Earnings
As of March 31, 2021, derivative accounting has decreased GAAP equity by approximately $\$ 499$ million as a result of cumulative net mark-to-market losses (after tax) recognized under GAAP, but not under Core Earnings. The following table rolls forward the cumulative impact to GAAP equity due to these after-tax mark-to-market net gains related to derivative accounting.

## Hedging FFELP Loan Embedded Floor Income

Net Floor premiums received on Floor Income Contracts that have not been amortized into Core Earnings as of the respective period-ends are presented in the table below. These net premiums will be recognized in Core Earnings in future periods. As of March 31, 2021, the remaining term of the Floor Income Contracts was approximately 2 years. Historically, we have sold Floor Income Contracts on a periodic basis and depending upon market conditions and pricing, we may enter into additional Floor Income Contracts in the future. The balance of unamortized Floor Income Contracts will increase as we sell new contracts and decline due to the amortization of existing contracts.
In addition to using Floor Income Contracts, we also use pay-fixed interest rate swaps to hedge the embedded Floor Income within FFELP Loans. These interest rate swaps qualify as GAAP hedges and are accounted for as cash flow hedges of variable rate debt. For GAAP, gains and losses on these hedges are recorded in accumulated other comprehensive income. Hedged Floor Income from these cash flow hedges that has not been recognized into Core Earnings and GAAP as of the respective period-ends is presented in the table below. This hedged Floor Income will be recognized in Core Earnings and GAAP in future periods and is presented net of tax. As of March 31, 2021, the remaining term of these pay-fixed interest rate swaps was approximately 6 years. Historically, we have used pay-fixed interest rate swaps on a periodic basis to hedge embedded Floor Income and depending upon market conditions and pricing, we may enter into swaps in the future. The balance of unrecognized hedged Floor Income will increase as we enter into new swaps and decline as revenue is recognized.

## Adjusted Core Earnings

Adjusted Core Earnings net income and adjusted Core Earnings operating expenses exclude restructuring and regulatory-related expenses. Management excludes these expenses as it is one of the measures we review internally when making management decisions regarding our performance and how we allocate resources, as this presentation is a useful basis for management and investors to further analyze Core Earnings. We also refer to this information in our presentations with credit rating agencies, lenders and investors.

The following table summarizes these expenses which are excluded:

## 2. Adjusted Tangible Equity Ratio

Adjusted Tangible Equity measures the ratio of Navient's Tangible Equity to its tangible assets. We adjust this ratio to exclude the assets and equity associated with our FFELP Loan portfolio because FFELP Loans are no longer originated and the FFELP portfolio bears a 3\% maximum loss exposure under the terms of the federal guaranty. Management believes that excluding this portfolio from the ratio enhances its usefulness to investors. Management uses this ratio, in addition to other metrics, for analysis and decision making related to capital allocation decisions. The Adjusted Tangible Equity Ratio is calculated as:

| (Dollars in millions) | March 31, 2021 | $\begin{aligned} & \text { December } 31 \text {, } \\ & 2020 \end{aligned}$ |  | $\begin{gathered} \text { March 31, } \\ 2020 \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: |
| Navient Corporation's stockholders' equity | \$ 2,723 | \$ | 2,433 | \$ 2,035 |
| Less: Goodwill and acquired intangible assets | 731 |  | 735 | 752 |
| Tangible Equity | 1,992 |  | 1,698 | 1,283 |
| Less: Equity held for FFELP Loans | 284 |  | 291 | 312 |
| Adjusted Tangible Equity | \$ 1,708 | \$ | 1,407 | \$ 971 |
| Divided by: |  |  |  |  |
| Total assets | \$84,957 | \$ | 87,412 | \$93,245 |
| Less: |  |  |  |  |
| Goodwill and acquired intangible assets | 731 |  | 735 | 752 |
| FFELP Loans | 56,873 |  | 58,284 | 62,492 |
| Adjusted tangible assets | \$27,353 | \$ | 28,393 | \$30,001 |
| Adjusted Tangible Equity Ratio(1) | 6.2\% |  | 5.0\% | 3.2\% |

(1) The following provides a pro forma of what the Adjusted Tangible Equity Ratio would be if the cumulative net mark-to-market losses related to derivative accounting under GAAP were excluded. These cumulative losses reverse to $\$ 0$ upon the maturity of the individual derivative instruments. As these losses are temporary, we believe this pro forma presentation is a useful basis for management and investors to further analyze the Adjusted Tangible Equity Ratio.
